DETAILED ACTION

Terminal Disclaimer

1. The terminal disclaimer filed on 7/11/2005 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of 6,724,393 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Allowable Subject Matter

2. Claims 1-12 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art does not teach a method for generating an adaptively sampled distance field of an object, comprising: defining a candidate cell of the adaptively sampled distance field; determining and storing distance values of the candidate cell in a bounded distance tree; recursively subdividing the candidate cell into subdivided cells of the adaptively sampled distance field while determining and storing corresponding distance values of the subdivided cells in the bounded distance tree until a termination condition is reached; and appending the distance values to the corresponding cells to generate the adaptively sampled distance field of the object.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 2671
